

Special formula
for Mack TerraPro
cabover refuse trucks

GREASE BUSTER

REFUSE TRUCK WINDSHIELD CLEANER DEGREASER

Cleans "DUMPSTER JUICE" off cabover windshields on the move

Working in your truck's windshield washer system, Grease Buster Refuse Truck Windshield Cleaner-Degreaser eliminates the need for your drivers to stop their trucks to clean windshields. Just look what special formula Greasebuster does for you:

- Cuts the dumpster juice buildup from overhead dumping on cabover truck windshields
- Safe on painted surfaces • Won't etch glass
- Concentrated for economy
- Cuts food fats, oils, proteins, road film, bugs, and anything else found in a dumpster.
- Won't smear or streak on windshield
- Freeze protection to 15 degrees
- Use in all windshield washer systems – Replaces all other windshield products

USE DIRECTIONS

Refuse trucks: Use in windshield washer system. Dilute Grease Buster 4 parts water to 1 part Grease Buster

All other vehicles: Use in windshield washer system. Dilute Grease Buster in warm weather at rate of up to 60 parts water to 1 Part Grease Buster.

FIRST AID

EYES: Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention immediately.

SKIN: Wash contaminated skin immediately and thoroughly with soap or mild detergent. Apply a skin cream. Get medical attention if irritation persists.

INHALATION: Move exposed person to fresh air at once. If the persons breathing has stopped, perform artificial respiration AND get immediate medical attention.

INGESTION: If the product is swallowed and the affected person is fully conscious, induce vomiting by giving two glasses of water and sticking finger down affected person's throat. Make sure to keep affected person's head below hip level to prevent aspiration (breathing) of liquid into the lungs. Immediately get emergency medical attention.

DISPOSAL AND/OR SPILL INFORMATION

As with all cleaning and maintenance procedures, run-off from the cleaning or maintenance process should be diverted to a collection vessel, and not allowed to soak into the ground or to enter a storm sewer.

If this product is spilled or contaminated and cannot be used, creating the need for disposal, absorb product on an inert absorbent material and deposit in a clean, sealable D.O.T. specification container for disposal as a hazardous waste.

Thoroughly clean area with a detergent solution and rinse well with water.

FLAMMABLE: Vapors can ignite explosively. Keep away from heat, spark, open flame, or any source of ignition.

STORAGE: Keep container tightly closed when not in use to decrease evaporation of volatile solvents. Keep this product away from food and food products.

Store container in dry area at temperatures between 40°F (4°C) and 120°F(49°C).

CAUTION: DANGER! POISON! CONTAINS METHANOL!
