

A premium liquid compound for washing and de-greasing refuse trucks and equipment

# REFUSE BLUE

## REFUSE TRUCK WASH AND DEGREASER

Cuts road film, grease, oils, food fats, dumpster juice, exhaust deposits and more.

**E**nvironmentally friendly Refuse Blue is formulated with detergents to easily remove normal soils, and water miscible solvents for maximum oil, grease, and road film removal.

Highly concentrated Refuse Blue dilutes with water to effectively wash & de-grease according to your specific requirements. See the dilution table on this label to select the best solution rate for your washing or de-greasing job.

### Use Refuse Blue to de-grease:

- Engines • Tires • Wheels • Floors • Compactors
- Dumpsters • Machinery • Heavy equipment
- Heavy tools and parts

### Use Refuse Blue to wash:

- Refuse trucks • Heavy equipment • Forklift loaders
- Trachoes • Any mobile equipment

**Use Directions:** Refuse Blue is concentrated and must be diluted. Select your best dilution ratio from the table to the right. Refuse Blue may be sprayed, brushed, or mopped. Also apply with pressure washers, steam cleaners and automatic floor scrubbing machines. Never allow product to dry on any surface. Always rinse with clean water.

### Caution: Contains Strong Alkalis

Rubber gloves and eye protection required. Avoid contact with eyes. If splashed on skin or eyes, rinse immediately. If swallowed, contact a doctor immediately. Do not inhale. If accidentally inhaled, move to fresh air. If irritation persists, contact a doctor.

#### HMIS Ratings
